

## A New Chapter for the Novel

### The **Sixty Minute Story** - A Novel Way to Spend an Hour

The Sixty Minute Story is a new story form, designed for the modern fast-moving lifestyle - where an entire story experience will fit into a single hour of reading.

The average person's reading speed is approximately 250 words per minute, and so in 60 minutes you could expect to read 15,000 words - the maximum length of a Sixty Minute Story.

The Sixty Minute Story is technology-friendly. A short, compact read - the SMS makes it ideal for eBook readers, netbooks, laptops, cellphones, as well as the iPhone and iPod touch.

The SMS is designed:

- to inspire authors writing short, sharp literature which they can publish instantly to readers
- to provide authors with an ongoing productive outlet to keep their creative mind honed
- and perhaps most importantly, to encourage more people to read by providing an accessible, modern portal for entertainment.

Why? Because time is precious - and the Sixty Minute Story helps us make the most of our time. Plus because the SMS is a book form designed for digital reading devices, it means you can find and download sixty minute stories much faster and easier - because they are all online at your fingertips.
